# VEDANT RAUT

Mumbai, Maharashtra | +91 7028023421 | vedantraut93@gmail.com | LinkedIn | GitHub | Portfolio

## Professional Summary

Data-driven professional with **3+ years of experience** in data analysis and reporting. Hands-on experience in **SQL, Power BI, and Advanced Excel** with proficiency Data visualisation and KPI reporting. Recognized with the **Super Crew Award** for exceptional teamwork and ownership. Holds a **Master's degree (MSc) in Business Analytics (UK) and Immediate Joiner.**

## Education

**University of Essex | United Kingdom** **Oct 2024 - Nov 2025**

Master of Science (MSc) in Business Analytics

## Skills

**Power BI**: Power BI Desktop, Power Query, Data Modeling, DAX, Data Visualisation, Report Optimisation, Power BI Service.
**SQL:** MySQL, Joins, Subqueries, CTEs, Window Functions.
**Advanced Excel:** Pivot Tables, Power Pivot, Pivot Charts, Formulas (IF, VLOOKUP, XLOOKUP, SUMIFS), and Conditional Formatting.
**Business Intelligence & Analytics:** ETL, Data Analysis, Data Transformation, Dashboards, Data Validation, Stakeholder Management.

## Professional Experience

**Consultant | LTIMindtree | Mumbai** **Feb 2022 - Sep 2024**

- Collaborated with **business stakeholders** and **functional teams** to investigate daily ERP-based BI publisher reports, performing root cause analysis on data discrepancies to ensure accurate and reliable business reporting.
- Prepared and examined incidents and change request (CR) data report using **Advanced Excel** to identify SLA breaches, recurring issues, and resolution time trends to present insights in weekly internal meetings.

**Graduate Engineer Trainee | Vodafone Idea | Pune** **Jul 2021 - Feb 2022**

- Prepared and analysed daily core **KPI reports** using **Advanced Excel**, tracking metrics such as Call Drop Rate, Call Success Rate, and Network Availability to improve network performance and operational planning.
- Collaborated with cross-functional teams including SNOC, vendors, and internal stakeholders to interpret operational data, resolve network issues, and improve service delivery against KPI targets.

## Projects

**Healthcare Analytics | Power BI | GitHub**

- Built Power BI reports by cleaning and transforming data, designed Star schema and DAX to analyse 120K visits, 20K patients, 500 doctors, and $76M revenue.
- Measured operational performance through $636 revenue per visit, $4K average cost, and visit trends across months, specialties, hospitals, and payment types.
- Identified Sandra Hill as the top doctor with 721 visits and $575K in treatment cost while highlighting Orthopedics as the busiest specialty and General Surgery as the top revenue contributor.
- Examined diagnosis and patient demographics, finding Hypertension (4.7K) and Diabetes (3.9K) as the most frequent diagnoses and the 65+ segment (5.6K) as the largest age group.

**UK Train Rides Analysis | Power BI | GitHub**

- Designed interactive Power BI reports using Power Query and DAX to analyse 32K rail journeys across 65 routes.
- Identified Manchester Piccadilly–Liverpool Lime Street as the busiest route (4,628 customers) and peak demand at 09:00 and 18:00, especially on Wednesdays.
- Evaluated £741.9K in revenue across ticket classes and types, with Standard Class contributing £593K and £149K for First Class.
- Discovered 2,292 delays and 1,880 cancellations leading to signal failures, technical issues, and staff shortages as key service performance drivers.

**Consumer Goods Ad-hoc Insights | MySQL & Power BI | GitHub**

- Conducted in-depth SQL analysis on consumer goods data for AtliQ Hardware, leveraging advanced techniques like CTEs, Window Functions, and Subqueries to uncover 10 ad-hoc insights, enabling data-driven decision-making.
- Created Power BI reports to visualise actionable insights, addressing key management challenges and simulating real-world business scenarios for effective decision support.

## Achievements

- Received **Super Crew Spot Award** for exceptional teamwork, ownership, and cross-team collaboration. **Aug 2023**

## Certifications

- SQL (Intermediate) – HackerRank. **Link**
- Deloitte Australia's Data Analytics Job Simulation on Forage.
