Proven track record of improving system stability by **12%**, reducing critical issue resolution time by **10%**, and enabling data-driven operational decisions. Holds an **MSc in Business Analytics (UK)** with strong experience in dashboard development, KPI reporting, and stakeholder collaboration. Seeking **Data Analyst / Business Analyst** roles.

---

## TECHNICAL SKILLS

**Data Analytics & BI:** Power BI (ETL, Power Query, DAX, Data Modelling, Data Cleaning, Data Visualization), Advanced Excel

**Databases & Querying:** MySQL (Joins, Subqueries, CTEs, Window Functions).

**Tools & Platforms:** Git, SQL Developer, MySQL Developer, MS Office

**Business & Analysis:** KPI Analysis, Dashboard Reporting, Stakeholder Management, Root Cause Analysis

---

## PROFESSIONAL EXPERIENCE

### Consultant | LTIMindtree – Mumbai

Feb 2022 - Sep 2024

- Improved **JD Edwards system performance** by resolving database locks using **SQL Developer**, monitoring servers, and scheduling Insight reports, resulting in a **12% improvement in system stability**.
  - Worked closely with **Business Analysts and business stakeholders** to deliver technical solutions aligned with operational and reporting requirements.
  - Reduced **critical issue resolution time by 10%** through proactive monitoring, issue triaging, and root-cause analysis.
  - Awarded the **Super Crew Award** for exceptional teamwork, ownership, and initiative.
- 

### Graduate Engineer Trainee | Vodafone Idea – Pune

Jul 2021 - Feb 2022

- Prepared and analyzed **Core KPI reports** using **Advanced Excel**, including Call Drop Rate, Call Success Rate, and Network Availability, enabling **data-driven decision-making** for network optimization and operational planning teams.
  - Achieved a **7% improvement in network KPI compliance, uptime, and availability** by coordinating with SNOCS teams and vendors, assisting in monitoring server infrastructure and resolving critical network performance issues.
- 

## EDUCATION

### Master of Science (MSc) in Business Analytics

Oct 2024 – Nov 2025

University of Essex - Colchester, United Kingdom

Grade: Merit

---

## PROJECTS

### UK Train Rides Analysis | Power BI

- Designed an interactive **Power BI dashboard** through **DAX and Power Query** to identify the busiest routes, including **Manchester–Liverpool (4,628)**, with peak travel times at **09:00 and 18:00 on Wednesdays**.
  - Assessed **742K total revenue**, comparing **Standard Class (593K)** versus **First Class (149K)** performance and investigated **2,292 delays and 1,880 cancellations**, caused by signal failures, staff shortages, and technical issues.
- 

### Zomato Restaurant Analysis | Advanced Excel

- Examined data from **9,551 restaurants across 15+ countries** to uncover trends in cuisine preferences, pricing, and ratings using **Power Pivot, Pivot Tables, Charts, and slicers** for business insights.
  - Identified an average cuisine rating of **2.6/5** and average cost of **₹1.2K**, highlighting opportunities for pricing and menu optimization.
- 

### Superstore Sales Analysis | Power BI

- Discovered **\$2.30M in sales and \$286K profit (12.5% margin)** across regions and customer segments.
  - Identified **West Region (31%)** as the top-performing region, **Corporate segment (\$706K, 34%)** as the highest revenue contributor, and **Technology category (\$717K, 37%)** as the leading product category.
  - Diagnosed profitability issues in the **Tables sub-category (-8.56% margin)** due to high discounts (**15.6%**) and shipping inefficiencies.
-
